**Subject:** Reilly Wendover 5-yr Escalation Letter

Blaine,

As a followup to our phone conversation this morning, I'm attaching the latest letter in our database that was sent to Reilly back in November 2003 regarding updating of their reclamation plan and 5-yr bond escalation requirements. I assume this is the letter the Moab Salt people were referring to when you spoke with them today.

I've also attached a 10/03 letter to the BLM that references our plans regarding future joint agency coordination on bond calculations for this site. I also faxed over those MagCorp transfer document references as promised. Let me know if you don't receive them.

If you have any questions, please give me or Doug a call on Monday.

Have a good weekend.

Wayne
